SEPTEMBER 24, 2016

Interview with Engr. Dr. Chris Ekpeyong, FNSE, FNIM

Engr. Dr. Chris Ekpeyong, FNSE, FNIM, is a former Deputy Governor of Akwa Ibom State.

Engr. Chris Ekpeyong

E-Newsletter: *Sir, what do you think were the challenges in engineering when you were in public service?*

Dr. Chris: The challenges were broad. First and foremost I showed honesty of purpose and aided my Governor to ensure that we fashion out a system of service delivery for the Akwa Ibom people and that is why you can see the successive governments are doing better because of the foundation we laid in terms of infrastructures. There are moribund industries that have

not been resuscitated but hopefully new ones will come in to replace the old ones that could not be resuscitated.

E-Newsletter: *What do you have to say about engineering in the future?*

Dr. Chris: Without engineering no mission can prosper. Without adaptation of the basic principles of applied sciences, technology and engineering services there won't be development. The society looks up to the engineers for sound engineering advice for infrastructural development.

E-Newsletter: *Thank you sir.*

The Nigerian Society
of Engineers
Port Harcourt
Branch

Annual General Meeting

Date:

Thursday 29th September
2016

Time: 5:00pm

Venue:
